Fast Facts

The A1676 Drift Boat

Capacity
 457 lbs. (MPC)

Team
 Up to 3 People

Size
 Length: 15'10" LOA

Range
 200 nautical mile

The A1676 HDPE drift boat is your reliable solution for rivers, lakes, and near shore waters. Ready to handle impacts and everyday use without added maintenance, this compact plastic boat offers dependable strength in a lightweight design

 **Capacity:** 457 lbs. (MPC)

 **Range:** 200 nautical miles

 **Team:** Up to 3 People.

 **Fuel Capacity:** -

 **Size: Length:** 15'10" LOA

 **Engines:** -

 **Applications:** The A1676 Drift Boat is built for shallow river fishing, lake and reservoir outings, and protected near shore waters. It handles tight channels, calm water trolling, and light outboard use with ease. It also works well for light utility tasks such as gear transport and shoreline access.

■ 15'10" x 6'6" Drift Boat

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

Efficiency Without Downtime

Built from durable marine grade HDPE, the A1676 resists UV, abrasion, and impacts. Its low weight and shallow transom make launching, rowing, or running a low horsepower motor effortless.

+ Size Specifications

Length: 15'10" LOA
Sides: 23"
Beam: 6'6"
Transom Height: 15" Shaft

+ Weight Specifications

Capacity: 457 lbs
Hull Weight: 425 lbs
Max HP: 10 HP

+ What a Color?

Hull bottom – black
Deck and surfaces – marble white

Custom colors available

+ How Many People

Max. Persons: 3

+ Material & Storage

Hull, floor, and sides built with marine grade HDPE for strength and impact resistance
Reinforced HDPE transom supports outboard motors up to 10 HP
Custom storage and layout options available upon request

+ Warranty Policy

About Legacy HDPE

Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

Why HDPE Is Revolutionary ?

The HDPE Advantage

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Ready For Your Next Mission?
