The A616 Fishing Boat

HDPE is a material that is resistant to UV radiation, chemicals, and abrasion. It is also a material that is long-lasting and easy to care for. The 616 Aylin fishing boat is constructed from HDPE. High-density polyethylene is appropriate for boats of this size because it provides long-lasting performance. Furthermore, we make this boat totally customisable, tailoring it to your unique requirements.

The A616 Fishing Boat is a compact and durable HDPE vessel designed for recreational use. Its simple layout and robust structure make it ideal for individual and light-duty marine activities. Resistant to UV, saltwater, and corrosion, the A16 delivers worry-free performance with minimal maintenance.

Capacity: 1080lbs. (MPC)	Range: 200 nautical miles
Team: Up to 4 People	Fuel Capacity: -
Size: Length: 16" LOA	Engines: -
Applications: Patrol, rescue, transport, environmental monitoring	

■ 16' x 6-6' Aylin Modified V (Model: IMHA616)

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

Innovation in every wave

The A616 HDPE fishing boat is your worry-free solution for any adventure or task, ready to handle impacts and rough use without missing a beat. With this small plastic boat, you get a lightweight, mission-capable boat that's as tough as it is versatile perfect for years of dependable service in any condition.

+ Size Specifications	Length: 16' LOA Sides: 32" Beam: 6'-6" Transom Height: 20" Shaft
+ Weight Specifications	Capacity: 1080 lbs. (MPC) Hull Weight: 1550 lbs.
+ What a Color?	Hull bottom – black, Deck/surfaces – marble white Custom colors available
+ How Many People	Max. Persons: 4
+ Material & Storage	Hull, floor and side material thickness is 1/2" HDPE. Transom material is 3/4 HDPE. Front platform/storage compartment, anchor locker, port and starboard rod lockers, four gunnel rod holders.
+ Warranty Policy	(PDF) LI Warranty Policy

About Legacy HDPE

Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

Why HDPE Is Revolutionary ?

The HDPE Advantage

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Ready For Your Next Mission?

Discover a variety of other boat that can transform your operations with unmatched durability and performance.
