

WE BRING 20 YEARS COMBINED EXPERIENCE TO THE HDPE INDUSTRY

Starting at

\$24,500

The L820 HDPE Boat

Innovative. The L820 is an HDPE boat designed for confident operation and long-term value. Its thoughtful design supports a wide range of marine applications, delivering a refined balance of performance, stability, and reliability without unnecessary complexity.

Fast Facts

The L820 HDPE Boat

Capacity
1,583lbs. (MPC)

Team
Up to 4 People

Size
Length: 20" LOA

Range
200 nautical mile

The L820 offers an ideal balance of size, payload, and maneuverability. With a 1,583 MPC capacity and a 55-gallon fuel system, it supports extended time on the water while maintaining excellent handling. HDPE construction ensures long-term durability, impact resistance, and minimal maintenance.

Capacity: 1,583lbs. (MPC)

Range: 200 nautical miles

Team: Up to 4 People

Fuel Capacity: -

Size: Length: 20" LOA

Engines: -

Applications: Wide range of marine applications, including patrol, rescue, transport and fishing.

■ 20' x 7-8' Lena 820

Innovation in every wave

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

Designed for demanding environments, the L820 resists UV exposure, chemicals, and abrasion while maintaining structural integrity over time. Its efficient layout accommodates up to four personnel, making it a practical solution for teams that need dependable performance, predictable operating costs, and lasting value.

+ Size Specifications

Length: 20' LOA
Beam: 7'-8"

+ Weight Specifications

Capacity: 1,583 lbs. (MPC)

+ What a Color?

Hull bottom – black,
Deck/surfaces – marble white
Custom colors available

+ How Many People

Max. Persons: 4

+ Material & Storage

Hull, floor and side material thickness is 1/2" HDPE.

Front and back platform/storage compartment, anchor locker.

+ Warranty Policy

About Legacy HDPE

Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

Why HDPE Is Revolutionary ?

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

The HDPE Advantage

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Ready For Your Next Mission?

Discover a variety of other boat that can transform your operations with unmatched durability and performance.
