# The T1230 HDPE Barge

The T1230 is an HDPE barge built to deliver consistent performance and structural integrity in harsh marine situations. It is designed with strength and load-carrying capability in mind, providing a practical, long-term solution for waterborne transit, staging, and industrial support.

# Fast Facts

The T1230 HDPE Barge

**Capacity**  
14,600lbs. (MPC)

**Team**  
Not rated

**Size**  
Length: 30" LOA

**Engine**  
Oxe Diesel

With a 14,600 lb capacity, the T1230 supports transport, staging, and utility operations with confidence. Its 30' length and wide beam provide a stable working platform, while the 1" HDPE hull thickness delivers strength where it matters most.

**Capacity:** 14,600 lbs. (MPC)

**Range:** 200 nautical miles

**Team:** Not rated.

**Fuel Capacity:** -

**Size: Length:** 30" LOA

**Engines:** Oxe Diesel

**Applications:** Engineered for heavy equipment transport, offshore and inland construction support, industrial staging, dredging operations, utility and infrastructure projects,

■ 30' x 12' x 13" HDPE Barge (Model: T1230)

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

# Strength You Can **Rely** On

The T1230 is built to withstand abrasion, impact, and exposure to harsh conditions. HDPE construction reduces maintenance demands and extends service life, offering a dependable solution for operators who prioritize durability and predictable ownership costs.

## Size Specifications

Length: 30' LOA  
Draft: 13"  
Beam: 12"

## Weight Specifications

Capacity: 14,600 lbs. (MPC)

## What a Color?

Hull bottom – black  
Custom colors available.

## How Many People

Not rated.

## Material & Storage

UV Stabilized Material  
Storage: rigging storage on back

## Warranty Policy

# About Legacy HDPE

## Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

## Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

# Why HDPE Is Revolutionary ?

## The HDPE Advantage

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

**Impact Resistant:** Withstands collisions and rough use without structural damage

**Corrosion-Free:** Immune to rust, rot, and UV degradation

**Impact Resistant:** Withstands collisions and rough use without structural damage

**Corrosion-Free:** Immune to rust, rot, and UV degradation

# Ready For Your Next Mission?

Discover a variety of other boat that can transform your operations with unmatched durability and performance.
