

WE BRING 20 YEARS COMBINED EXPERIENCE TO THE HDPE INDUSTRY

Starting at **\$226,147**

The T2440 Work Barge

This 40' HDPE platform, designed for heavy-duty use, can easily support up to 15,000 pounds. It has a non-slip deck, UV-stabilized materials, and a climate-controlled cabin to provide all-day comfort.

It offers exceptional mobility and durability, thanks to its Oxe Diesel engine and a Tiger crane. No downtime, no recoating, just absolute efficiency.

Fast Facts

The T2440 Work Barge

Capacity

15,000lbs. (MPC)

Team

Climate Controlled Cabin

Size

Length: 40" LOA

Engine

Oxe Diesel

Experience unmatched durability and functionality with the 40' HDPE Work Barge. Small enough to be agile and large enough to get the job done.

Capacity: 15,000 lbs. (MPC)

Range: 200 nautical miles

Team: Not rated.

Fuel Capacity: 500 gallons

Size: Length: 40" LOA

Engines: Oxe Diesel

Applications: Ideal for crane operations, marine construction, dock and piling work, heavy equipment lifting, and industrial support in coastal or inland waters.

■ 40' x 30.5' HDPE Barge (Model: T2440)

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

Efficiency Without Downtime

Built for efficiency, this barge eliminates downtime with no recoating or frequent repairs, while offering easy future modifications. Compact yet powerful, it's mobile and agile for any job, from construction to dock work. Truckable for transport.

+ Size Specifications

Length: 40' LOA
Horizontal reach: 30.5 ft
2" thickness Hull
5.5" Spud pole

+ Weight Specifications

Capacity: 15000 lbs. (MPC)
Tiger Cranes Model 1593

- 14800lb double line lift capacity
- Horizontal reach 30ft

+ What a Color?

Hull bottom – black
Custom colors available.

+ How Many People

Not rated.

+ Material & Storage

UV Stabilized Material
Full Restroom Shower
Climate Controlled Cabin
Storage: rigging storage on back

+ Warranty Policy

About Legacy HDPE

Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

Why HDPE Is Revolutionary ?

The HDPE Advantage

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Ready For Your Next Mission?

Discover a variety of other boat that can transform your operations
with unmatched durability and performance.
