Fast Facts

The T825 HDPE Barge

Capacity
3240lbs. (MPC)

Team
Up to 10 People

Size
Length: 31'-2" LOA

Range
200 nautical mile

A work platform that allows for daily use without worry of puncture in difficult workspaces. We engineer all our Tenli barge to fit your exact needs, weight loads, distribution, and functionality based on your job requirements.

Capacity: 2,850 lbs. (MPC)

Range: 200 nautical miles

Team: Not rated.

Fuel Capacity: -

Size: Length: 25" LOA

Engines: -

Applications: Offshore construction, marine transport, dock and waterfront projects, and heavy duty jobsite support in demanding environments.

■ 25' x 8' Tenli Barge (Model: IMHT825)

Putting our environment first by extracting and reusing HDPE pipe to make indestructible boats.

A Barge You Can Rely on.

Workboats & especially barges, simply can't afford to break down when the mission calls. They must be reliable and out of mind, allowing you to focus on the decision that matters. That is why our HDPE hulls remove any worry about impact damage, broken parts, and the sometimes catastrophic impacts that they bring.

With the T825, you get a mission-ready boat that will serve for decades to come.

+ Size Specifications

Length: 25' LOA
Sides: 30"
Beam: 8"

+ Weight Specifications

Capacity: 2850 lbs. (MPC)
Hull Weight: 3500 lbs.

+ What a Color?

Hull bottom – black
Deck/surfaces – marble white
Custom colors available.

+ How Many People

Not rated.

+ Material & Storage

Hull and side material thickness is 3/4" HDPE.
Deck/platform and transom material is 3/4" HDPE.
Rear transom well access for battery and fuel tank(-s).

+ Warranty Policy

About Legacy HDPE

Our Story

Legacy Innovations was founded in 2016 with a simple but powerful vision: reclaim abandoned HDPE water lines from oil and gas fields in the Powder River Basin and give them new purpose. We began by reselling recovered pipe for non potable water projects, a service we continue to provide today.

As operations grew, we transformed an arena into a plastic processing facility, allowing us to manufacture recycled HDPE sheets in house. Today, we produce durable HDPE tanks, utility beds, sheets, and boats built to last.

American Made is at the heart of what we do.

Our commitment drives our everyday decisions

Legacy HDPE is set apart in countless ways from the standard in this field, including the totality of its removal process and the cost at which it performs such operations.

Why HDPE Is Revolutionary ?

The HDPE Advantage

HDPE is a superior alternative to traditional marine materials. Its unique properties make Legacy HDPE boats safer, longer-lasting, and environmentally responsible for demanding marine operations.

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Impact Resistant: Withstands collisions and rough use without structural damage

Corrosion-Free: Immune to rust, rot, and UV degradation

Ready For Your Next Mission?

Discover a variety of other boat that can transform your operations with unmatched durability and performance.
